Hakkart [CLEM], — 4:15 PM

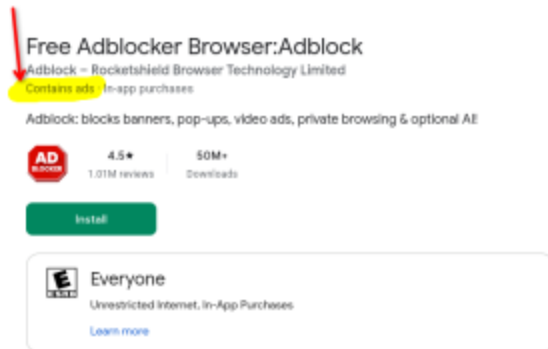

[ARCH],

Borg-Trizzle-Squashy (惑葵) — 4:22 PM

I had to look and verify myself. wtf hahahaha

The best adblock solutions for Android which ensures fast and safe browsing with your privacy fully protected while browsing the Internet.

John Linux [ARCH], — 4:23 PM

yeah man i was so shocked because of how absurd it is

i saw this while downloading my apps from the aurora store on my new pixel

fucking insane world we live in

Borg-Trizzle-Squashy (惑葵) — 4:25 PM

haha 4.5 stars with 1 million reviews @ 50+ million downloads? Do people think that this is the standard or something?

John Linux [ARCH], — 4:25 PM

surely its just botted right? right???

Borg-Trizzle-Squashy (惑葵) — 4:26 PM

The amount of money they would have spent on that many bots is insane

John Linux [ARCH], — 4:27 PM

i just looked at the permissions and some of them are genuinely concerning

Borg-Trizzle-Squashy (惑葵) — 4:30 PM

Yeah?

John Linux [ARCH], — 4:32 PM

wait apparently its a web browser????

im reading the reviews rn

one of the reviews said this

"Adblocker browser that makes you watch ads or else you can't use the browser that day"

John Linux [ARCH], — 4:37 PM

"so that was a fucking lie"

Borg-Trizzle-Squashy (惑葵) — 4:37 PM

Oh wow

The thing I linked to was just a browser-addon

John Linux [ARCH], — 4:38 PM

what the fuck

Borg-Trizzle-Squashy (惑葵) — 4:38 PM

OH wait, no I'm wrong

It IS a browser

I missed that

I'm looking at the perms now and you're right, super sketchy

Apparently if you want an ad-free adblocker, you must pay for it, according to the reviews.

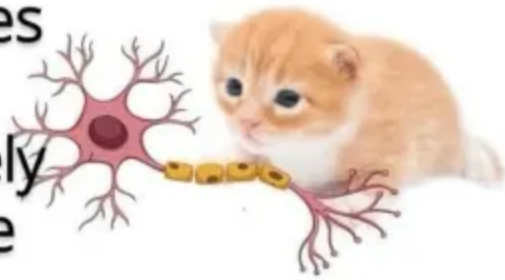

I'm seeing nasty things in the reviews.

John Linux [ARCH], — 4:46 PM

WHAT

Gary has brought you a brain cell

He believes
you
desperately
need one

say thank you to gary

Borg-Trizzle-Squashy (惑葵) — 4:47 PM

I'm guessing it's for people who don't realize that that browser extensions are a thing and/or don't know how to install them. They probably think paying for an adblocker is the norm.

Po0ka — 4:48 PM

probably because it contains a list of ad delivery urls or rules for ads, or that internet in general contains ads so they have to say it will contain some

oh damn, the reviews say you need to pay?

Borg-Trizzle-Squashy (惑葵) — 4:48 PM

Yeah

Po0ka — 4:48 PM

oh ffs

hahahahah

Borg-Trizzle-Squashy (惑葵) — 4:48 PM

But still, 50 MILLION downloads for this thing??? Wow

Po0ka — 4:48 PM

glorified chromium shell with pay to win internet i assume

Borg-Trizzle-Squashy (惑葵) — 4:50 PM

DUDE!!!! That browser has MORE downloads than all the Ublock Origin downloads and variations COMBINED

John Linux [ARCH], — 4:52 PM

unbelievable

if you pay for that shit you need to lose the right to spend money

Borg-Trizzle-Squashy (惑葵) — 4:54 PM

I'm honestly betting people don't realize that there's an alternative and that it's free.

I wonder why Google hadn't removed it... doesn't it violate their updated TOS?

John Linux [ARCH], — 5:00 PM

they probably use google ads so they dont care

Po0ka — 5:00 PM

would it be crazy to say it could be laundering in some ways? (ie: google play gift cards)

John Linux [ARCH], — 5:02 PM

thats a cool theory lmao

Borg-Trizzle-Squashy (惑葵) — 5:06 PM

As stupid as this browser is, I don't think it's CRW worthy.

I think it's a Chinese-run browser.

else is for legit ad blocking extensions. If there really was 50 million downloads, where's the rest of the reviews on YouTube?
